

RHEUMATISM

Cured Through the Feet
Don't Take Medicine, External Remedy Brings Quick Relief. Sent FREE ON APPROVAL. TRY IT.

We want everyone who has rheumatism to send us his or her name. We will send by return mail a pair of Magic Foot Drafts, the wonderful external cure which has brought much comfort into the United States from any internal remedy ever made. If they give relief, send us One Dollar; if not, don't send us a cent—you decide.

Magic Foot Drafts are worn on the soles of the feet and cure by absorbing the poisonous acids in the blood through the large pores. They cure rheumatism in every part of the body. It must be evident to you that we couldn't afford to send the drafts on approval if they did not cure, even after everything else has failed.

Since I used the Drafts I walk without crutches. They do just what you claim.

ANNIE LEE GUNN, Augusta, Ark.
I am much pleased with your Magic Foot Drafts. I have found it to be just as you promised. I have found nothing that would help me before trying your Drafts.

JOHN A. WHITE, Grafton, Mich.
I have suffered with rheumatism for the past ten years. Magic Foot Drafts have entirely cured me. I have felt no pain since using them.

MRS. MARY ST. ANGE, Woonsocket, R. I.
We have thousands of long letters of gratitude from men and women cured of rheumatism by Magic Foot Drafts. Will you let them cure you? Write to-day to the Magic Foot Draft Co., 26 Oliver Bldg., Jackson, Mich., for a trial pair of drafts free on approval. We send also a valuable booklet on rheumatism free.

CAROLINA KAOLIN RICH IN ALUMINUM.

Deposit Near Aiken, N. C., Declared to Contain Sixty Per Cent of Metal.

SYNDICATE BUYS THE LAND.

By a New Process the Aluminum Can Be Rapidly Made and Sold at a Third of the Present Price.

REPUBLICAN SPECIAL.

Aiken, S. C., March 5.—What is perhaps the largest enterprise that has ever been promoted in this section is now on foot.

Aiken County kaolin has been for many years considered the finest in the world, and as such has commanded the highest prices. It has also been known for a long time that this clay is rich in aluminum. One of the most valuable deposits on the Riley McCarty place was bought by Doctor J. J. McMillan and F. B. Henderson about three years ago.

The tract, comprising about twenty acres, was found to be underlaid with a bed of the purest kaolin clay, averaging about twenty-seven feet in thickness. Samples sent to experts for analysis showed that the clay was exceedingly pure, and many orders were received from potteries and manufacturers of wall paper. Doctor McMillan inquired into the manufacture of pottery ware, and the result is that a company is now being formed.

Later Doctor McMillan received a letter from a man in Harrisburg, Pa., asking for a sample of the clay. Doctor McMillan shipped a hundred pounds of the clay and forgot all about it. When the new hotel was opened a few days ago, three patrons to register were Captain John McLeod Murphy, A. C. Zacharias and A. B. Mosser, of Harrisburg, Pa. They called upon F. B. Henderson and obtained an option on the twenty-acre tract. Doctor McMillan owned of the clay land, the price being \$25,000.

J. H. Loomis, who owned 300 acres next the old mine, was called upon and his offer to sell for \$2,000 was accepted, and an option secured. The tract, which was also called upon, and his price was accepted and an option secured. The tract, which was also called upon, and his price was accepted and an option secured.

These sentiments Mr. Roosevelt express in an introduction he has written to the "History of the Republican Party" by Francis Curtis, and published by G. P. Putnam Sons.

TRY NEW KIND OF CARRIER.

Philadelphia Post Office Installs Unique Contrivance.

Philadelphia, Pa., March 5.—A new contrivance in the Post Office expedites the delivery of special-delivery letters.

Heretofore, when special-delivery letters were dropped in the box, they were carried in bunches as they accumulated to the local specially-delivered department or to the out-of-town departments and distributed. The new carrier does all this, even to the delivery of the letters, in a better and quicker than ever before.

The track is overhead, and extends from the desk where the letters are mailed to the local delivery room half a square away. There are several stations along the route, where metal baskets are placed for the reception of the mail, while a rack alongside holds letters to be sent.

As the starting point the letters are placed in a rack as fast as mailed. Immediately a carrier captures them and while alone to the station for which they are intended, dropping them in the receptacles and catching up such other mail as may be awaiting it in the rack.

As fast as the letters are received at the desk and professional men and farmers and within two minutes after they are dropped in the box they are on the way to their destination.

A NOTRE DAME LADY.

I will send free, with full instructions, some of the simple preparations for the cure of Leucorrhoea, Ulceration, Displacements, Falling of the Womb, Scanty or Painful Periods, Tumors or Growths, Hot Flashes, Desire to Cry, Creeping Feeling up the Spine, Pain in the Back, and all Female Troubles, to all sending address. To mothers of suffering daughters I will explain a Successful Home Treatment. If you decide to continue it will only cost about 12 cents a week to guarantee a cure. Tell other sufferers of it, that is all I ask. If you are interested write now and tell your suffering friends of it. Address Mrs. M. Summers, Box 412, Notre Dame, Ind.

REPORTED THAT MRS. PAGET WILL CONTEST WILL OF W. C. WHITNEY.

MRS. ALMERIE PAGET.
Daughter of the late W. C. Whitney, who is returning from Europe to contest the will of her father, which gives her only one-tenth of the estate, while five-tenths was left to her brother, Harry Payne Whitney, the eldest son.

REPUBLICAN SPECIAL.
New York, March 5.—There has been talk since the death of William C. Whitney that his daughter, Pauline, now Mrs. Almerie Hugh Paget, of London, would contest the will of her father, in which he left one-half of his estate to his son, Harry Payne Whitney, dividing the other half between three other children by his first wife, giving three-tenths to Miss Dorothy, who is still a minor, and one-tenth each to Mrs. Paget and Payne Whitney.

Reports have even been published to the effect that Mrs. Paget prepared to sail the day after her father's death to enter a protest against the probate of the will.

These rumors, however, have not been verified. Mrs. Paget is still in London, and from cable dispatches received here, does not contemplate any legal action to defeat the provisions of her father's last testament.

It is well known that Mrs. Paget and Payne Whitney were bitterly opposed to the union between their father and the latter's second wife, who was Mrs. Randolph, and this opposition probably led Mr. Whitney to give the bulk of his large fortune to his son, Harry Payne Whitney, who approved his action.

Friends of the Whitney family also assert that Colonel Oliver Payne, who is immensely wealthy, will leave his vast fortune to the children of Mr. Whitney, who were practically disinherited by their father.

and of the spirit, of the mind and of the soul, which in their sum make up what is high and fine type of character which tells of true greatness. Such was the character shown in every phase of the work of Lincoln.

There are few less desirable things than to advance the history of what has been well done in the past as an excuse for failure to do better in the present, and few more desirable than to study such history with the earnest desire to profit thereby, in order to do better service in the time that now is.

"MOONSHINE" STILL FOUND IN PHILADELPHIA.

Revenue Officers Arrest Two Brothers, Charging Them With Making Quantities of Whisky.

REPUBLICAN SPECIAL.
Philadelphia, March 5.—An illicit still, which would rival the outfits of the famous "moonshiners" of the Alleghenies, was unearthed at No. 119 Richmond street by Collector of Internal Revenue McCosch and several deputies.

After a race and a pursuit through the streets of Kensington, during which a milk wagon was pressed into service by one of the pursuers, Jacob and Morris Aber, the alleged proprietors, were arrested.

The capture is regarded by Collector McCosch as the most important of its kind for many years as the capacity of the still was unusually large and the grade of whisky produced was high.

For several days the Richmond street home of the Aber brothers had been under surveillance by the Collector and his men.

Persons living in the neighborhood believed that a vinegar manufacturing plant was in operation on the upper floors of the house. From points of vantage on nearby houses the deputies had attempted to peer into the Aber home, but as the windows were screened with cloth the attempts failed.

Early in the morning Collector McCosch, Chief of Deputies Wilkes and Deputies Friel, Kelly, McDowell and Lee surrounded the suspected house.

Deputy Lee opened the front door and stepped inside. He had proceeded as far as the rear door when he saw Morris Aber in the yard. Aber realized that something was wrong, and without waiting to greet his guest dashed by him and out of the front door.

Lee called once to the fleeing man and then stepped after him up Richmond street.

With a crowd following at their heels the two men dashed into a back street and continued to Shackamaxon, Beach and Hanover streets.

Suddenly Deputy Lee espied a milk wagon, driven by John Conway. With a bound Lee was upon the seat, and before Conway recovered from his surprise, had grasped the reins and urged the horse into a gallop.

At Girard avenue Lieutenant Quick of the Eleventh Police District, who was passing on a street car, jumped off and joined in the chase, and after a spirited dash seized the fugitive.

Back at the Richmond street house things were happening at a lively rate. Collector McCosch and his assistants rounded up Jacob Aber, and upon searching the building, found a large copper still in operation on the second floor, and on the floor above twenty barrels of mash were found.

Each barrel was connected with the still by a wooden pipe. A quantity of whisky, which, when tested, showed 140 proof, had been recently drawn from the still and was standing near by. The Collector estimates the output of the still at 250 gallons per day.

The men were given a hearing before Commissioner Bell.

Morris Aber was held in \$1,000 and Jacob Aber in \$500 bail for court. The brothers came here recently from New York.

SCRATCH ON HAND FATAL.

Engineer Succumbs to Blood Poisoning and Fever.

REPUBLICAN SPECIAL.
New York, March 5.—As a result of his hand having been scratched on a rusty nail, Henry Hoffman, 29 years old, a son of Captain Henry Hoffman, of No. 3 Linden avenue, Flatbush, superintendent of the Bedford Wire Coal Company of Manhattan, died Friday night from blood poisoning and typhoid fever.

Captain Hoffman had his son moved to the hospital two weeks ago, when it was discovered that blood poisoning had set in. The case was not considered fatal until a week ago. The deceased was a marine engineer and popular among members of his profession. He was well known in social and club circles of Flatbush, and was a member of the Independent Order of Foresters and also the Engineers' Association of New York.

Famous
BROADWAY & MORGAN
WE GIVE EAGLE TRADING STAMPS.

Men's and Young Men's Spring Suits.

As usual, Famous is first in the field with the new Spring ready-to-wear apparel. With warranted pride we direct your attention to the handsome lines that now await your inspection. America's most representative and cleverest tailors have sent their proudest productions to this majestic gathering—Here you will find hundreds of new and smart pattern creations in Scotch weaves, fancy mixtures, hard-finished worsteds and chevrons; also, the dressy plain black tibets, unfinished worsteds and blue serges—The fashionable three-button single or double-breasted sack coats, with long roll lapels, will be much in evidence this season—custom tailor enthusiasts are specially requested to inspect these garments—in style, fabric, workmanship and perfection of fit they outshine the average tailored-to-order kind that costs double what Famous asks—Each grade, from the lowest to the highest-priced, is a value of unapproachable merit—prices range from.....

Our Men's Top Coats at \$13.75

Are the kind you'll find priced in other stores at \$18 and \$20. They're built of those dashing gray and browned homespuns and Scotch mixtures, Oxford gray and the modest solid black Vicunas and unfinished Worsteds—also the much-wanted tan and drab coverlets in the plain and fancy weaves—short box and medium lengths—hand-tailored throughout, reflecting a high degree of style—we wish to specially emphasize this superior line that we show at.....

Our Men's Raincoats at \$16.50

Are positively unequalled in the city under \$20 and \$22.50. This is a broad assertion, we admit, but it is borne out by facts. These Raincoats serve a twofold purpose and can be worn either as a storm or top coat—some made of the genuine "Cravenette" cloths and come in those rich tans, steel grays, small Scotch plaids, neat mixtures and solid blacks—satin sleeves and shoulders—50 to 54 inch lengths—they're useful coats—every man should own one—you can own the right kind at the fairest price, if it comes from Famous—the \$20 and \$22.50 kind elsewhere are shown in our line at.....
